SUMMARY

As a Planning and Design Manager, Construction Manager, and Owner's Representative, I have managed projects ranging from \$50,000 to \$65 million within the commercial, institutional, industrial, municipal, and residential sectors. Although I have managed project specific contracts the last decade, I would prefer to remain with a single employer for the duration of my career. I wish to be based in Pittsburgh, but willing to manage and develop projects throughout the United States and Canada.

PROFICIENCIES

Business Development and Marketing	Subdivision and Land Development Reviews
Scoping, Budgeting, and Contract Negotiations	Vendor Audits, Procurement, and Logistics
Comprehensive and Long Range Planning	Permitting and Utility Coordination
Building and Site Design	Project and Construction Management
Roadway, Streetscape, and Stormwater Design	Site Observation, Expediting, and Inspection
Take-Offs and Estimating	Punchlists and Close-Out Documentation

ACCOMPLISHMENTS

Reduced material and installation project costs by 15% of \$26M construction contract.

Streamlined an internal and external workflow process that significantly improved communication with engineers, inspector, expeditors, buyers, logistics, and clients. During my tenure, this resulted in increased revenues for expediting and inspection work.

Completed a two year, \$65M project 4 months ahead of schedule resulting in a less than 2% increase in proposed budget.

Increased revenues 138% during a two-year period for additional municipal services including; survey, budgets, road programs and water districts design, design review, and inspection.

PROFESSIONAL EXPERIENCE

Project Manager / Construction Manager – G. Stephens, Inc. – June 2018 to January 2019
