ACCOMPLISHMENTS:

- Program/Project managed the deployment of major carrier network cell sites, small cells, decommissions, in-building distributed antenna systems (DAS), modifications, site acquisition, cell site construction, cost budgets, and competitive vendor sourcing for cellular carrier network deployments. Support the sales team at customer meetings and for business development.
- Supervision of Construction Managers, Project Coordinators, and third party vendors associated with site acquisition, construction, and decommission of antenna cell sites.
- Managed capital projects including major wide area networks (WAN) for public school education service centers located in Texas using wireless microwave technology and fiber infrastructure.

WORK EXPERIENCE:

ACS Group, Irving, TX – 1/19 to 5/20

- **Program Manager II *through* ACS Group**

Program Manager for major carrier through ACS Group. Assists in managing small cell deployment programs consisting of a number of interrelated projects. Coordination of cross functional work to collaborate with other teams in the Submarket including Real Estate, RF Design, Construction, and System Assurance. Use the clients program management tools (PMO website, SharePoint, Microsoft Office, etc.) to manage project work plans, issues, risks, and dependencies. Produce status reports, conduct regular status meetings and be accountable for issue resolution and risk management sessions. Manage outside contractors and internal processes from candidate identification thru AZP to construction and integration.

Apex Systems, Irving, TX – 5/18 to 10/18

- **DAS Project Manager *through* Apex Systems**

DAS Project Manager for major carrier through Apex Systems. Coordination of cross functional work to collaborate with other teams in the Submarket. Manage all facets of high volume in-building DAS projects and programs to ensure deliverables are met within schedule, budget and quality goals, using quality principles and appropriate development methodologies. Facilitates regular meetings to review status, gather updates and reporting results for quarterly reviews, plan of record meetings and project updates.

Mobilitie, Dallas, TX – 11/15 to 3/18

- **Senior Project Manager, 4/17 to 3/18**

Build a structured approach to successfully complete small cell deployment projects in the allotted time. Establish project standards. Develop project plans and manage status updates. Communicate needs, goals and milestones to appropriate project team members, executives, and customers. Determine the capital resources, equipment, and tools needed to complete the project. Drive program issues through to resolution. Coordinate activities of cross-functional teams. Concurrently manage multiple projects.

- **Construction Project Manager, *through* Talascend LLC, 11/15 to 3/17**

Construction Project Manager for Mobilitie. Project manage small cell deployment construction from start to finish. Provide Management with accurate and timely status reports. Supervise construction progress, ensure quality standards and completion dates.

Yoh, A Day & Zimmermann Company, Plano, TX – 2/15 to 11/15

- **Telecommunications Construction Manager II, *through* YOH, 2/15 to 11/15**

Virtual Punch Walk (VPW) Construction Manager for Ericsson. Audit major carrier cell site tower top and civil construction and reject work that does not meet technical specifications. Work with the market team to maintain and validate the supplier construction complete schedule. Document defects in databases of record.

Goodman Networks, Plano, TX – 6/12 to 11/14

- **Manager I Project Management, 6/13 to 11/14**

Manage major accounts and customer communications, metrics and reporting both internal to Goodman as well as directly with the customer. Manage the critical business improvement initiatives. Interface and support the Customer PMOs and internal resources responsible for reporting the project and program performance. Oversee support for customer systems interface (e.g. Sprint Siterra). Support the sales teams with new customer program start-ups such as Ethernet migrations and base station carrier growth kits.

- **Project Manager II, 6/12 to 5/13**

Develop, manage, and implement project plan, project schedule, risk assessments, and contingencies for specific geographic/market area cell site decommission projects.

Conterra Broadband Services, Richardson, TX – 4/09 to 5/12

- **Project Manager, 4/09 to 5/12**

Responsible for project managing all activities for major wide area network (WAN) deployments for several education service centers in Texas. Manage results involved with site acquisition, tower construction, microwave equipment installation, estimating and managing budgets, ordering towers and materials to facilitate the microwave sites to be built. Communicate with school officials, architects, contractors, city officials and landlords to answer questions and solve problems.

Sprint Nextel, Dallas, TX – 2/96 to 3/09

- **Construction Project Manager II, 1/06 to 3/09**

Responsible for project managing all activities and results involved with site acquisition, tower construction, estimating and managing budgets related to new and/or existing distributed antenna systems (DAS) and network cell sites, plus special projects throughout the south region including major airports.

- **Senior Wireless Construction Specialist, 1/04 to 12/05**
- **Senior Wireless Implementation Engineer, 7/00 to 12/03**
- **Wireless Implementation Engineer, 2/96 to 6/00**
