

Eric Williams

M) 949.648.3131 E) williams.eric.x@gmail.com

Summary

Focused, analytical, and technically minded leader with experience managing cross-functional teams to plan, build, and launch class leading networks for major wireless carriers across the U.S. Excels at liaising between business and technical areas to achieve on-time, on-budget and on-spec project completions. Able to execute strategic initiatives quickly and effectively to help the organization respond to the rapid pace of change.

Experience Highlights

- Empowered team members to work across disciplines to identify additional viable site candidates that allowed our customer to meet their aggressive quarterly and annual project goals.
- Hosted and facilitated the T-Mobile Modernization “Quality Working Session”, that brought together over 200 participants to perform root cause analysis. The outcome being an increase in quality and productivity, with a decrease in cost and cycle-time across the entire project.
- Served as Subject Matter Expert for national level First Order Applications on several network solutions for T-Mobile while collaborating with project engineers to develop streamlined effective processes for network deployment.

Employer Summary

2014-2017 Adex Corporation, Contracted to Ericsson

Quality Assurance Lead

National Role

- Established the internal metrics used for the Quality and Excellence Index for all regions of the national program.
- Conducted regular governance meetings in all regional markets to review and improve QEI scores, resulting in a month over month increase in positive scoring.
- Delivered market and regional metrics reports to business unit directors, highlighting notable trends in delivery, quality, and cost.

Deployment Manager, T-Mobile Southern California

Irvine, CA

- Managed all phases of network deployment projects (budgets up to \$1.25M), and consistently exceeded quarterly goals and client expectations throughout tenure.
- Monitored the daily activities of multiple vendors across all network deployment activities, while serving as the primary point of contact for all escalations.
- Customer facing role responsible for tracking and reporting all project milestones across multiple databases from planning phase to “on-air” status.
- Utilized multiple data points and enterprise software to assist the customer with identifying weaknesses in the project plan, and to develop processes that effectively mitigated risks to the existing network infrastructure.

Site Development Technical Trainer

National Role

- Conducted “Method of Procedure” simulation technical training for the Sprint 65 MHz Project.
- Collaborated with Subject Matter Experts to develop training processes and curriculums that served as the prototype for the current “Center of Excellence” training facilities.
- Provided valuable feedback to subject matter experts that resulted in updates to technical specifications and processes.

2012-2014 Fusion Solutions, Contracted to Ericsson

Network Deployment Specialist

National Role

- Deployed to local markets to evaluate and identify weak points within the network deployment processes and worked to alleviate those issues through training, feedback and in-field mentoring.
- Actively tracked project deviations from Ericsson and client specifications to create consistency across national projects.
- Represented Ericsson's national programs at the local market level and advocated for the adoption of key global processes.

Quality Assurance Manager, T-Mobile Modernization Project

Irvine, CA

- Guided project personnel through adherence to customer specifications across multiple markets.
- Developed and documented project processes and specifications related but not limited to, coaxial sweep testing, fiber testing, azimuth alignment and closeout procedures.
- Tracked and documented all market specific quality deviations while providing a point of contact for all third-party quality auditors.
- Organized and hosted process specific training sessions throughout the southwest region that resulted in increased quality and market engagement.

2011-2012 Moore Tower Maintenance, Inc.

Operations Manager

Winston-Salem, NC

- Trained and managed incoming telecommunication construction crews, that led to 100% expansion of the capability of an established telecommunications contractor.
- Guided company executives to identify strengths and weaknesses within the existing business structure and to develop efficient growth strategies resulting in a 50% increase in business.
- Led teams through field-testing and troubleshooting of existing LTE and CDMA networks for Verizon Wireless, AT&T, T-Mobile, and Sprint.
- Managed the installation, test, and integration of new 4G LTE network sites for Verizon and AT&T, while ensuring that quality and workmanship of installations were within the contract specifications and customer expectations.

2007-2009 Telis Communications, Contracted to Cricket Wireless

Telco-Construction Project Manager

Chicago, IL

- Provided a single point of contact to over 100 Outside Plant Engineers, and established working relationships with I&R Managers, Dispatch personnel and High-Cap Centers to ensure timely installation and commissioning of over 2000 DS-1's.
- Worked with site acquisition managers to identify and establish utility easements and coordinate with AT&T right of way managers to install backhaul service to over 800 new sites.
- Supervised the efforts of six Architectural & Engineering firms during the utility design portion of the project. Reviewed and redlined drawings where necessary.

Skills and Education

Certifications/Skills

- CommTrain Certified
- OSHA 10 Hour Training
- Wilderness Outdoor First Aid/Responder
- Andrews Connector Certification
- O.D.M. Fiber Test Certified
- Anritsu SiteMaster and PIM Master
- Proficient with Microsoft Office Suite
- Ericsson EAMS, SMS Siterra, SiteHandler
- Anritsu SweepMaster software
- Adobe Creative Suite, Final Cut Pro
- Tableau and Python data analytics tools

Education

- Sculpture and Intermedia Design
University Of Utah

College of Fine Arts
2004-2007
