CONSTRUCTION MANAGER PROFESSIONAL

Hardworking, enthusiastic, and accomplished construction management professional with over 10 years of experience with AT&T wireless projects along with proven skills to ensure construction is completed in a timely and accurate manner according to client specs. Hands-on experience with directing the activities of contractors and crews for mechanical, electrical, civil, and structural construction in an industrial setting. In-depth knowledge of and solid background in telecommunication systems engineering, infrastructure and design, with an exceptional ability to read engineering drawings maps. Highly competent at managing the construction team in formulating and maintaining construction schedule throughout the project from start to finish, as well as with bidding, subcontract scope of work, pricing of owner and subcontractor change orders and verification of costs. Strong leadership skills demonstrated in efficiently supervising employees, subcontractors and vendors to ensure both quality control and project compliance. Outstanding analytical and problem solving skills in resolving problems regarding plans, specifications, conflicts with the architect, engineer, clients and subcontractors and documentation of all corrections, changes and requests. ***Proven success working with all carriers AT&T, Verizon, T-Mobile, Clearwire, Metro PCS, Cellular One, and Cricket and managed these carriers in multiple markets, Atlanta, New York, Boston, Austin, Scottsdale, and Charlotte.***

- Project Management & Operations

*Expert-level of proficiency using Microsoft Office suite including Word, Excel and Project.
Advanced level of proficiency using Anritsu.*

INDUSTRY CERTIFICATIONS

*American Red Cross First Aid and Heart Saver
RF Awareness
Anritsu Site Master Certified, Spectrum Analyzer
Sprint 65 MHZ
OSHA ten-hour, RF Awareness certification
HAZMAT, Lockout – Tag out, proper 100% tie-off, Telco boxes, positioning lanyards, safety climbs, personal protection equipment.
Radio Frequency Systems (RSF) cellflex transmission line connections and quality assurance certification
Andrews installing lines and connectors on towers certification
COMTRAIN Instructor x 2 and Advanced Rescue certified
COMSCOPE coaxial cable quality certification including sweeping lines, connector tools, rigid cables for broadcast and installation trouble shooting*

PROFESSIONAL EXPERIENCES

YUPANA, INC., Walnut Creek, CA
SOCAL Construction Manager

August 2016 to Present

Brought onboard to manage both timely and accurate procurement of permits to field personnel as required to maintain consistency with construction production schedules. Responsible for quality checks of all documents and reports, verifying the accuracy of data, and calculations for fees needed for the construction start and permit process.

SOCAL Construction Manager, cont....

- Served as the link between customers and contractors on all project related issues such as purchase orders scope of work, cost estimates and negotiation of prices, terms and contracts.
- Utilized strong leadership abilities in building and maintaining vendor and customers' relationships to align with company goals and objectives.

AUSTAL, Mobile, AL

June 2015 to March 2016

Test and Activation, Exotic Connections

Worked on LCS Group, Radar System, Monitors, Wind System Communications, Fiber, Coax. Managed installation of CAT 5-6, Elliptical Coax, Fiber Connectors and Cannon Plugs.

- Consistently recognized as an excellent resource to improve organizational effectiveness and efficiency through personal contribution.
- Served as the main focal point to direct and manage site operations with managerial efforts focused on verifying subcontractor alignment with quality standards throughout all project phases.
- Coordinated subcontractor schedules to optimize workflow, contain corporate cost exposure and ensure the delivery of projects within critical completion deadlines.

HYBRID COMMUNICATIONS, GA

June 2013 to June 2015

Owner/Operator, Project Management, Zillacom

Managed the oversight of the scheduling of all AT&T and Sprint construction to maintain client time lines for subcontractors and in-house personnel. Monitored construction for LTE & 65MHZ activities, budgets, and labor cost for site construction. Other responsibilities included marketing, estimating, attending bid walks, and contracts administration and subcontracts for the construction of Cellular communication sites.

- Demonstrated excellent analytical skills in troubleshooting and repairing cellular communications equipment, and in resolving field installation problems.
- Measured progress toward goals and revised project objectives to ensure the attainment of the goal.
- Identified potential risks and adjusted project activities to minimize the effects of problems encountered.

QUANTA WIRELESS, MS/TX/NYC/AZ

June 2012 to June 2013

Construction Project Manager

Responsible for monitoring of construction activities for site construction with T-Mobile, AT&T, Sprint and NexTel Dcomms, DAS, and Turn Key. Other duties included site walks, administration, coordination of client close out documentation, attending bid walks, estimating, awarding and administration of client contracts and subcontracts for the construction of Cellular communication.

- Served as the link between customers and contractors on all project related issues such as purchase orders scope of work, cost estimates and negotiation of prices, terms and contracts.
- Translated project requirements into project objectives and tasks on turnkey deployments; effectively managed project resources and reported project progress throughout the project lifecycle.
