Dear prospective employer,

This letter and resume are for your consideration for a position as a construction / project manager, that I believe will fully utilize my profesional skills and personal abilities. My background reflects over 25 years of hands on extensive experience in the building of wireless telecommunications sites. This is coupled with coordinating vast schedules and crews, ensuring projects completion under budget, and on time. I have a comprehensive background from rigging to managing the complete testing and building of towers, poles, tenant improvements, microwave and PCS sites. I have also established and maintained communications and rapport with fellow staff, clients, subcontractors, engineers, architects, and maanagemeent. These are all combined with proven business knowledge, and a comprehensive education.

My professional background, telecommunications expertise, communication and negotiation skills, and my ability to work with people from all lifestyles, sometimes under difficult circumstances, are benefits I will bring to your organization. In addition, that experience has given me a solid base and a broad understanding of consstruction and business oprations practices.

You will find me a loyal, personable, and dedicated individual with the ability to quickly establish strong working relationshhips with individuals from all levels and backgrounds. My positive personality enables me to maintain offective and efficient performance in a conscientious manner.

In closing, I want to thank you for your time and consideration. I would welcome an opportunity to meet with you and further discuss my qualifications in detail.

Sincerley,

Kevin Overbey

Professional Profile
