Professional Experience

Senior Right-of-Way Agent • Wood (Wood Group) • Houston, TX • October 2017-Present

From client's home office support its Field Engineering Group in the acquisition of pipeline infrastructure rights in the States of Texas, New Mexico, and Louisiana:

- Serve as project manager to designated projects overseeing the day to day operations of such. Conduct preliminary route investigation and the development of project cost estimates.
- Negotiate, review, prepare, and circulate agreements to secure and obtain pipeline and electric line easements, fee properties, surface sites, and permanent access roads.
- Obtain required permits, licenses, and or leases from granting authorities for line crossings and facilities.

Real Estate Acquisition Representative • HNTB • Houston, TX • May 2016-October 2017

Conducted right-of-way acquisitions for the Texas Department of Transportation (TxDOT):

- Prepared and presented offers to and negotiated with landowners and their representatives to secure land necessary for highway expansion projects. Reviewed, provided recommendations, and submitted landowners' counteroffers for administrative settlement to TxDOT.
- Conducted parcel closings. Worked with landowners and title company to cure matters that would prevent the passing of clear title to the State of Texas.
- Assisted relocation and condemnation groups in their work as needed under applicable state and federal laws and regulations.

Right-of-Way Agent • Wood Group (Mustang Engineering) • Houston, TX • April 2011-April 2016

Assigned to client's home office supporting its Land, Capital Projects Group in the acquisition of pipeline infrastructure rights in the States of Texas, Colorado, and Oklahoma:

- Negotiated, reviewed, prepared, and circulated agreements to secure and obtain pipeline and electric line easements, fee properties, temporary workspaces, surface sites, access roads, and leased facilities and properties or directed field service companies to do so.
- Coordinated with legal counsel the exercise of eminent domain rights in project states.
- Supported field permit agents in obtaining required permits, licenses, and or leases from granting authorities for line crossings and facilities.
- Conducted preliminary route investigation and the development of project cost estimates.

City Planner • City of Rosenberg • Rosenberg, TX • May 2007-July 2010

Delivered development/redevelopment services to the stakeholders of the City of Rosenberg and its extraterritorial jurisdiction:

- Drafted amendments and additions to the municipal land use and building regulations. Made presentations to city council, planning commission, landowners, general public, and associated professionals.
- Reviewed subdivision and construction applications for compliance with applicable laws, regulations, and existing development agreements.
