Profile Review

OEF Army Veteran, MBA graduate and PMP Certified Project Manager, currently employed as a Site Acquisition Project Manager for the largest telecom provider in the United States.

Professional Experience

Site/Land Acquisition Project Manager

Vertex Acquisition / Indianapolis, IN / 2015 - Present

Vertex Acquisition is a site/land acquisition company for the telecom industry. Our primary responsibility is to evaluate and identify potential sites for wireless communication facilities, which include prospective cell-tower construction sites and rooftops/commercial property locations.

- Evaluate client's needs and identify parcels and commercial or privately-owned properties to construct wireless communication facilities.
- Identify interested parties through diligent research and outreach and perform on-site visits with property owners to evaluate parcels and properties to ensure they meet client's needs and local zoning ordinances.
- Negotiate lease agreements on client's behalf with interested property owners and manage project from lease execution through construction.
- Participate in ongoing meetings with clients, engineers, attorneys, environmental firms and other vendors to ensure that all project milestones and deliverables are on target.
- Serve as intermediary for all project stakeholders, ensuring that all parties are aware of the client's ongoing and evolving needs and that construction will commence on time and within budget.

Additional Information

Chris is a proven and driven Project Manager, with several years of telecommuting/remote project management experience in multiple industries, including marketing, construction, telecom and humanitarian aid operations.

Chris also served 6 years in the U.S. Army as an Infantryman and was deployed to Afghanistan during Operation Enduring Freedom from 2009-2010, where he received several commendations, such as the Army Combat Infantry Badge (CIB) and the Army Commendation Medal (ARCOM).

Since leaving the service, Chris has organized and launched two non-profit organizations and has joined an additional NGO, The Clean Water Corps, which provides sustainable clean water resources to communities in need throughout the entire world.

Most recently, Chris spent time in Thailand, providing clean drinking water to remote villages along the river between the Thailand and Myanmar border.

While in graduate school, Chris also served as a teaching and research assistant within the Information Systems and Operations Management Department.

Chris has also completed the Indiana Real Estate Brokerage Exam and has recently passed the PMP Certification Exam.
