

Larry Ortega

Rancho Santa Margarita, Ca. 92688 | 949.201.7246 | larry.ortega@outlook.com

Objective

- My goal is to become associated with a world class company, where I can utilize my professional skills and gain further experience while enhancing the company's productivity and reputation.

Education

ASSOCIATES OF SCIENCE | 2002 | ITT TECHNICAL INSTITUTE:

- Major: Computer Aided Design
- Related coursework: Architectural, and Civil Drafting & Design.

ACADEMIC DIPLOMA | 2000 | SYLMAR HIGH SCHOOL:

- Major: Academics

Skills & Abilities

MANAGEMENT:

- Ability to produce A&E ROW wireless telecommunication projects from beginning to end.
- I am organized and have high attention to detail.
- I can define problems, analyzes causes, identifies possible solutions, and develop action plans.
- I have an ability to self-manage and utilize time management during site walks in order to obtain the required information and stay on track with the site walk schedule.
- I'm able to communicate clearly, concisely, and effectively both verbally and in writing.
- Experience leading a team of in house drafters, outsourcing team and training multiple satellite offices to ensure all drawings are consistent before QC/Submittal.
- Able to work in a time-sensitive, high volume environment with functional groups throughout the company to achieve high-level results.
- Self-motivated, able to work both independently to complete tasks and respond to department requests as well as collaborating with others to utilize resources and knowledge in identifying high quality solutions.
- I have an ability to visually communicate concepts, draw well and very detailed.
- Proactively identify potential issues and collaborate cross-functionally to develop a preventive action plan to address identified future issues.
- Handle multiple tasks simultaneously solving any issues we encounter during the design cycle. This requires excellent communication skills with the A&E Vendors and an understanding of design and technical issues that the A&E team must address in the design process.

SKILLS:

- Experience working with vendors, RF's directly making sure all information is incorporated on the drawings.
- Experienced with various programs and websites such as MS word, Excel, OneDrive, AutoCAD, Navigate LA, Google maps/earth, Niteowlpro, Adobe Photoshop, LiveTrack, OneNote, DropBox, etc.
- Experience using a Rolo-tape (wheel) for fielding.
- Speed, accuracy and detail-oriented.

- Pole stick for height attachments on utility poles.
- Knowledge of telephone industry standards. (GO95, etc.)
- Measure attachment heights, span distances, and structural dimensions.
- Take measurements, field notes and produce sketches for TCP designs.
- Locate, sketch and document detailed information of OSP facilities: Cables, poles, ground structures, manholes and equipment.
- Able to produce photo-simulation (Photo-Sims) for wireless cell sites.

Over 18 Years Work Experience

10/18 – Present A&E Project Manager – Small Cells | **PINNACLE DESIGN GROUP**
12/16 – 10/18 A&E Market Lead – Small Cells | **MD7**
