OLDCASTLE PRECAST, INC., (formerly Strescon Industries), Morrisville, PA

09/1997 – 07/2009 (12 Years)

Leading US manufacturer of precast concrete

Production Scheduler/Coordinator

Supervised three production clerks; worked with vendors and customers in getting production scheduled for shipment.

Inspected and followed blueprints to schedule production according to load requirements.

Planned and scheduled production of 30 to 50 separate jobs monthly, taking into account a variety of factors that often arise to delay processes (weather, availability of equipment, and other trades on job site).

Scheduled trailer loads and delivery dates. Contacted customers, general contractors, and erectors on each job to coordinate changes. Relayed date changes, equipment requirements, or specific delivery (union/non-union) requirements to dispatcher.

Created production schedule for plant and erection schedule for shipping department. Processed all daily changes and updates.
