8 The Green – Suite 7393
Dover, DE 19901

Dear Human Resources:

My name is Celeste Germany and I am writing in response to your requirement for a Project Manager. The responsibilities are perfectly aligned with my skills portfolio and career interests. I have experience excelling globally in comparable roles. I have received promotions, highly-favorable performance evaluations, and exceptional ratings on customer-completed scorecards, during my tenure serving as: Senior Program Manager, Pre-Sales Technology Professional, Engineering Program Manager, Senior Systems Engineer and Project Manager. By the way, I am experienced open to working remotely and/or flexibly to accommodate global time zones.

On another note, it appears that my relatively unique credentials will position me to excel in this pivotal roles. To that end, my diverse background includes the following: An undergraduate Accounting degree, combined with experience, graduate courses, and vendor training within the technology domain. The icing on the cake is represented by excellent interpersonal and written communication skills, which are essential for thriving in fast-paced, dynamic, innovative, collaborative, and global environments.

Furthermore, I have successfully and simultaneously managed complex portfolios of global technology development, integration, implementation, service delivery, service availability, change, process, quality, and operations initiatives. Hence, I have materially contributed individually and/or while collaborating cross-functionally on an internal/external basis. The aforementioned has resulted in achieving the following: Delivering innovative products/services. Salvaging at-risk customer relationships and the tightly coupled revenue generating contracts. Routinely delivering desired results and favorable outcomes. Playing an instrumental role in increasing the number of referenceable accounts and the revenue earned from strategic accounts. Identifying costs reduction and process improvement opportunities and spearheading the corresponding global initiatives. I have also earned a prestigious Top 5 performance award as well as other esteemed performance awards.

Given all of the above, I welcome the opportunity to discuss your requirements and the relevant aspects of my background. Please feel free to contact me as follows: mobile 412-573-1938, email cg52148@mail.com. I appreciate you considering my credentials. I look forward to hearing from you at your convenience.

Thanks and Best Regards,
Celeste Germany

SR. GLOBAL PROGRAM/PROJECT MANAGER: Strategic manager of remote, diverse, globally distributed cross-functional teams and complex IT software, hardware, network, systems, ops, change, and service delivery initiatives. **Portfolios include:** software and product development, implementation and integration, cloud, SaaS, PaaS, managed services delivery (includes: ITSM), infrastructure upgrades, service availability planning/management, and process improvement. **Client profile includes:** Global enterprise corporations/government entities. **Dollars/headcount:** Contract revenue managed \$214M max, headcount 103 max. **Highly proficient at:** Incorporating Agile (Scrum) and Waterfall SDLC with PMBOK best practices. **Expert at:** Satisfying clients, Executive communications, B2B pre-sales consulting, effectively addressing change/roadblocks, negotiating/collaborating with internal/external managers. Financial and data analysis, defining requirements, drafting and negotiating critical contractual agreements (SOWs, SLAs etc.).

PROFESSIONAL EXPERIENCE

SMITH MICRO SOFTWARE INC. (SMSI)

2010 – Present

Global developer and professional services provider of B2B/B2C mobile, IoT, connected car, analytics, cloud, SaaS, network/embedded solutions for: Fortune 500 Enterprises/Mobile Network Operators/Governments/Telco Carriers.

Senior Global Program/Project Manager (Sr PgM) – Global Product Dev. & Delivery

2012* – Present

Strategically manage client expectations and global cross-functional teams engaged in lifecycle activities: ideation, feasibility, design, engineering, development, integration, testing, migration, implementation, service delivery, sales, G2M/launch, training, support, and operations. Incorporate Agile (Scrum), Waterfall to drive the completion of portfolios of complex technology initiatives for: Fortune 500 Enterprises, Telco Carriers, MNO's, Partners and Government entities (in support of LOBs generating some of the aforementioned over \$1 billion in revenue). Create and present business cases, executive dashboards, deals desk workbooks, quarterly business reviews, meeting minutes and status updates. Create drafts of requisite contractual documents (SLAs, SOWs etc.) and obtain final approval from Legal. Manage contractual commitments, budgets, vendors, partners, defects, risks, issues, change, KPIs and P&L.

Collaborate with sales executives to provide clients with pre/post-sales technical consulting expertise. Liaise with OEMs, clients, partners, vendors etc. to build relationships and increase business line profitability. Analyze complex requirements and manage customer product roadmaps. Negotiate internally/externally with executives/sr. managers. Manage service availability plans and the RFP response process for key accounts. Determine LOEs/performance analysis to determine minimum walk-in/walk-out pricing. Serve as the internal/external escalation SPOC for tech and administrative issues (revenue impacting major incidents, service availability, contracts, product performance, etc.).

Honors Include:*Promoted: From PgM to Sr PgM (2012*). “Top 5 award (process and financial improvements).

COMCAST

2006 – 2009

Global media/technology conglomerate; owns NBCUniversal (NBCU). Provides B2B/B2C Internet/Data/Video/VoIP.

Commercial Account Engineer (CAE) – Advanced Technology Products (Pre/Post-Sales)

Leading at the intersection of media and technology by defining requirements/deliverables, providing B2B clients with sales/systems engineering, migration, training, and troubleshooting expertise (for Internet/VoIP/Data/Video services).

Honors Include: “Comcast President's Club” award.

AUBURN UNIVERSITY

2002 – 2006

Graduate Student and Research Fellow – College of Engineering (Computer Science Graduate Program)

Honors Include: “A” average (3.75 GPA). My research was funded by the prestigious National Science Foundation.

CONCERT COMMUNICATIONS (A British Telecom company.)

1998 – 2002

A leading provider of voice, video, and data services for more than 40% of the Fortune 500 in over 52 countries.

Engineering Program Manager (Eng PgM) – Global Product Development (2000 – 2002) – continued next page

PROFESSIONAL EXPERIENCE (continued)**CONCERT COMMUNICATIONS** (A British Telecom company.) (Continued)

1998 – 2002

A leading provider of voice, video, and data services for more than 40% of the Fortune 500 in over 52 countries

Engineering Program Manager (Eng PgM) – **Global Product Development** (2000 – 2002) - continued

Contribute to profitability by providing full life cycle program management expertise to AT&T, China Telecom etc. for enterprise (B2B) and public sector (Federal and State governments) customers. Manage technology initiatives via Waterfall from concept through development, test, market launch and EOL for: core network infrastructure, application software/systems and worldwide voice, data and video services, with global annual revenue of over \$214 million.

Develop program strategy, supporting business cases and project plans. Manage global cross-functional teams, metrics, risk, budgets, escalations and change. Communicate status to executives. Establish priorities, remove obstacles, and facilitate root cause analysis. Create/present proposals, negotiate complex global agreements (e.g. Interconnect etc.).

Honors Include: “Concert Global Honors” outstanding performance award. Over 94% on-time/quality/budget rating.

Senior Systems Engineer & Project Manager (Sr SE & PjM) – **Global Engineering** (1998 – 1999)

Provide capacity planning, design, development, test, systems migration/integration/administration, engineering, service availability planning/management, and project management professional services to Concert (and global partners) for the implementation of core backbone network software/hardware, firewall systems, provisioning systems, fault handling systems, security systems, service management systems etc., which support revenue generating global Internet, Frame Relay, ATM, managed IP, and VPDN services. Facilitate root cause analysis, disaster recovery and business continuity activities. Manage worldwide cross-functional teams/budgets. Create/present proposals, engineering designs, and deployment plans.

Honors Include: Promoted to Engineering Program Manager. Over 92% on-time/quality/budget rating.

EDUCATION/TRAINING (includes)

Duquesne University: Donahue School of Business – Accounting BS Program 3.3 GPA/4.0 scale.

Auburn University: Samuel Ginn College of Engineering – Computer Science MS Program 3.75 GPA /4.0 scale.

Training: ITIL v3, IT Service Management, Amazon Web Services (AWS) – Certified Solutions Architect, PMP.

PROFESSIONAL BACKGROUND AND TECHNICAL EXPOSURE (includes)
