

AAKASH P. SHINDE

108 Sussex St, Harrison, NJ 07029 | aps89@njit.edu | Cell:(862)237-0987

OBJECTIVE

Seeking a Co-op/Internship that will utilize acquired knowledge and education in the field of computer networking to design, maintain, troubleshoot and provide security to the network.

EDUCATION

New Jersey Institute of Technology(NJIT), Newark, NJ

Expected: May 2019

M.S. Electrical Engineering-Computer Networking, GPA: 3.67/4.0

Coursework: Internet and Higher layer protocol, Computer Networking Laboratory, Computer Network design and analysis, Computer Communication Network, Linear systems, Random signal Analysis

Shivaji University, Kolhapur, India

May 2016

Bachelor of Engineering, Electronics and Telecommunication

TECHNICAL SKILLS

Tools: Cisco packet Tracer, Matlab, Mininet, Wireshark, Putty

Programming Languages: C, C++, Keil

Operating systems: Microsoft Windows, Linux

TRAINING

PROFESSIONAL CERTIFIED COURSE IN WIRELESS MAINTENANCE TECHNOLOGY(TCWMP)

June 2016-September 2016

Teleman institute of wireless technologies, Pune, India

- In-depth understanding of emerging wireless technologies including GSM, CDMA, 2.5 G, UMTS and practical understanding of Optical Fiber Communication, Optical splicing, Optical Testing & Measurements
- Basic functioning of MSC, BSC, OMC, BTS, BTS Infrastructure Maintenance, Wire line Technologies: SDH and PDH, WiFi, WiMax, Drive Test Analysis and Planning
- Data communication: Routing and Switching, Router Configuration, IP Addressing, IPV4, IPV6, Migration from IPV4 to IPV6, Ethernet technologies and protocols, Wireless LAN

BHARAT SANCHAR NIGAM LIMITED(BSNL), Kolhapur, India

- Training covered principles of telecommunication industry, mobile technologies and emerging trends in telecom networking. It also included hands on knowledge of telephone exchange, GSM, CDMA, Broadband and OFC installations

ACADEMIC ACTIVITIES

ACADEMIC PROJECTS

- **Software Defined Networking(SDN)**

August 2017-December 2017

Designed and Implemented the SDN network in mininet and introduced openflow flow entries on open vswitches(OVS). Included congestion and its detection in wireshark and implemented the congestion control algorithm in mininet.

- **Digital Healthcare System**

July 2015-May 2016

Created a flexible working environment for hospitals to store and access latest prescription of patients through Healthcard. Designed program on virtual basic and implemented GSM. A server network of sensors was created to access health related history of patients.

PAPER PRESENTATION

- **'Electronic Trans-receiver device for retail market industry'** presented at 'VISION'15', a National Level Event
- **'Wireless communication'** presented at 'Xecute 2K15', a National Level Event

SEMINARS

- **'Basic concepts of Synchronous digital hierarchy(SDH) and Plesiosynchronous digital hierarchy(PDH)'** presented at B.V.C.O.E, Kolhapur

WORKSHOPS

- Implemented a line detection Robot in workshop **'Robotryst-2015'** at Government polytechnic, Kolhapur
- Learned about basic building blocks of Android application development in workshop on **'Android App Development'**

EXTRA CURRICULAR ACTIVITIES

- Won Analog maker competition (Texas Instruments, India) at B.V.C.O.E, Kolhapur

INDEPENDENT COURSEWORK

- CCNA Routing and Switching
