Education:

- Class of 2019: Master's degree – Electrical Engineering – Wright State University/USA – GPA 3.6/4.0;
 - o My master's thesis is about improving the sensitivity of the Digital wideband receiver.
- Class of 2009: Bachelor's degree – Electrical Engineering – Anbar University/Iraq – GPA 3.1/4.0.
 - o My bachelor's research is about overcoming the channel Noise by using the spread spectrum technology.

Experience:

- **2015-present: Graduate Assistance – UCIE office/ Wright State University;**
 - o Process the International students' applications;
 - o Help to solve technical problems of Salesforce;
 - o Lead and organize some Public events.
- **2016: Teacher Assistance – Electrical Engineering Department/ Wright State University;**
 - o Grade assignments and Tests;
 - o Explain some MATLAB/Java codes for students;
 - o Teach students the Digital Radio Frequency propagation principles and cellular theory.
- **2010-2014: RAN/RF Engineer (2G, 3G, LTE, and CDMA) – Asiacell Telecom/Iraq**
 - o Designed, tested, and site selection for wireless telecommunications systems.
 - o Collected data, implemented cell site configurations, and provided inputs for better KPIs.
 - o Used Wind-Catcher to analyze L3 messages for setup, call and Handover failures.
 - o Installed Multi-Carrier Power Amplifier(MCPA) to improve the coverage of Highway sites.
 - o Performed SSDs on the pre-launch LTE sites.
 - o Performed Post-Processing of drive test logs using Actix and TEMs to analyze Call setup failure, call drops, and Handover.
 - o Performed IRAT test for testing cell selection-reselection and frequency camping.
 - o Used Mapinfo to check and modify the cells configuration so improve the cell sites performance.
 - o Got technical training from NSN, Huawei, and Ericsson.
 - o Led some projects to expand TRxs, BTSs, and BSCs for special occasions.
 - o Used Atoll/ Unet to plan, predict, and optimize the cellphone network for the new areas.
 - o Installed Mobile BTSs (MBTS) in some areas to overcome gap coverage or traffic congestion problems.
 - o Performed a Benchmark drive test between three cell phone networks in Iraq (Asiacell, Zain IQ, Korek).
 - o Used XCAP, TEMS, Actix, and Windcatcher to check and analyze log files to determine problems and provide solutions.
 - o Led three projects to swap Equipment of the Cell Phone towers from NSN (Nokia Networks) to Huawei, and from Huawei to Ericsson.

Skills:

- **Hardware:** RF Signal Generators, FPGA, Spectrum analyzer, Digital Oscilloscope, Surecall Signal Meter .
- **Software:** C++, Java, Actix, TEMS, Huawei M2000, NASTAR, AutoCad, Cadence, Advanced Design System(ADS), MATLAB, VBA, OS Programming, Linux/Unix, MS office, MapInfo, Map Basic, AIRCOM Asset, XCAP.
