EXPERIENCE

Further Enterprise Solutions, National – *Field Engineer*

May 2020 -August 2020

Conducted drive testing and E-911 testing across the United States for Sprint and T-Mobile, in coordination with their merger.

Zelus/Eco3D, National – *Scan Technician*

December 2018 - March 2020

Captured accurate 3D data on existing building conditions in a variety of environments using Faro and Leica laser scanners to create virtual blueprints. Used cameras, light meters and distometers to record additional site information for building information modeling.

RJE Telecom, Western New York – *OSP Engineer*

June 2017 - May 2018

Documented information on poles in Verizon's inventory to prepare them for transfers and removal. Measured and diagrammed cable working from plant schematics, drawings and maps.

RJM Wireless, Northeast/Midwest United States – *Field Engineer*

February 2015 -March 2017

Tested E-911 capabilities of AT&T's LTE network to verify 911 calls would be properly routed and traced to correct public safety answering points.

EDUCATION

Michigan State University, Geographic Information Systems Certification
2017-2018

Rochester Institute of Technology, Rochester, NY — *Urban and Community Studies*, 2007 – 2012

CREATIVE MINDED

-Can view challenges from a unique point of view when working toward a solution

-Capable of designing websites, branding and managing social media for creative projects

TECHNICALLY DRIVEN

- Trained on Faro and Leica 3D Scanners, Scene and Cyclone registration software

- Experience with ArcGIS, QGIS, Smallworld mapping software

- Bluebeam and Xodo Document editing tools

ADDITIONAL CERTIFICATIONS

-OSHA 10

- Secure Worker Access Consortium

-UAS Certified
